Temple University has had the pleasure to participate in a tour of India with Kunal Parekh High School Tours and I would have to say that our trip had been absolutely flawless. We went through many High Schools across India and not one mistake throughout the whole trip. From the Minute we landed in India to the minute we left the country everything was perfectly planned and beautifully execute. If anybody wants to go on a good high school tour of India, I would strongly recommend considering Kunal Parekh High School Tours
